Library Report.

To the Citizens of the Town of Gilford:

The trustees of the Gilford public library beg leave to submit their annual report together with that of the treasurer of the library funds, for the year ending Feb. 15, 1901. The number of volumes added to the library during the year has been 125, making the total number now on hand 981. Of the money appropriated by the town, \$89.86 has been expended in the purchase of books, 105 having been procured in that way and the balance of the increase is due to donations from the state and from private citizens.

The record kept by the librarian shows that 29 new borrowers have become patrons of the library during the year and that 1,883 volumes have been loaned, classified as follows: Fiction, 1,828; history, 31; general literature, 8; travels, 5; art, 1; biography, 6; poetry, 4. The largest number loaned in any one day was 44.

A new catalogue of all the books in the library has been prepared and is now in the hands of the printer and will soon be ready for delivery. The cost of printing this catalogue will probably be about \$30, and the trustees feel that they would not be justified in using nearly one-third of the annual appropriation from the town in paying for a work of this kind to be distributed gratuitously to the public, a practice which would probably lead to many unnecessary calls for catalogues and compel frequent publications of new ones at constantly increasing expense but that, considering the very liberal

support of the library by the town, those most directly interested in and most benefitted by the library, the borrowers, should be willing to pay a reasonable price for the catalogues, and have consequently fixed a price on them of ten cents each; a price which, if the whole edition should eventually be sold, would about cover the cost of printing.

It is hoped not only for the convenience of the librarian but also for the benefit of the readers, that all patrons of the library will avail themselves of the opportunity to purchase new catalogues.

School Report.

It is not less a pleasure, than a duty here to acknowledge our thanks to both teachers, and pupils, who have worked in unison with characteristic industry, energy and zeal in each one of the eight schools which we have maintained within this town.

Notwithstanding the fact that our district schools are much shorter than the schools in neighboring towns, our pupils have made fine progress in their studies. For the future welfare of our scholars we hope that each term in our town may be extended by several weeks.

The winter school was a success in every way, although it can hardly be called a high school as it is impossible to make a high school without material, and this year as well as in the past we have not had sufficiently qualified scholars to run a high school; therefore we think it would be better to discontinue the so-called high school and divide the money thus expended equally within our several districts, thereby giving all pupils an equal chance.
